

Everyday is Christmas

© 2004 Saker/Wickham/Russell

Spoken:

Girl 1: Did you send him a Christmas Card yet?

Girl 2: No, this year I sang it for him

Girl 1: Oh really? How did it go?

Girl 2: Something like this...

They say it's going to be a cold December
It's gonna be the coldest in living memory
And as the snowflakes fall I will remember
The dying ember of love that used to be

Ever since the day of our good-byeing,
Baby, I've been crying tears I never knew
But (for?) they are tears of laughter that you gave me
Your departure saved me, and now that we are through

Spoken:

Girl 1: You didn't did you?

Girl 2: I sure did, I said darling...

Every day is Christmas without you dear
Without you near, my Christmas wish came true
Now I'll be making merry,
In June July and February
Every Day is Christmas
Every day is Christmas Without you

Middle eight

Choirs sing, Sleigh Bells ring
And bad times are forgot
Now there's a tingle in the air
Everywhere you're not.

*(Alt lyric) Now my life is just one long vacation
A celebration for all the year through
[Every day is Christmas without you dear
Without you near, my Christmas wish came true]
Now I'll be making merry,
In June July and February
Every Day is Christmas
And baby you can kiss this
Cause every day is Christmas Without you*
