

When They Played Our Songs

© Jessica Martin 2004

Hey it was great
We could feel a sense of fate
That perfect time
We made it rhyme
When they played our songs

Young troubadours
Born to Rebel with a cause
To make them dance
Start a new romance
When they played our songs

Simple Catchy Melodies
Were our stock in trade
The Crowd were there
For us to please
Shooting stars
Who really had it made

No sad regrets
It's so easy to forget
Though youth is gone
We'll be going strong
When they play our songs

Little fools
Who could break the rules
When they played our songs

Once we sold a million
One day it was none
But at the school reunion
We're forever number one

Once we were great
But for us it's not too late
We'll make it rhyme like the first time
Though youth is gone
We're still going strong
We'll make them dance
Start a new romance
When they play
When they play our songs
