

## Alien Love

© 2003 Dan Russell

The Major came on board  
And acted like a Lord Mayor  
With his ermine and gown  
Those last seven light years  
Were bringing me down  
That's when I saw you.

The Silver in your hair  
The eyes that stared so benignly  
From the palms of your hands  
Did not compute  
Or fit to a plan  
But I certainly dug it  
Yeah I dug it.

(And I said)  
Alien love be mine and will be your moon man  
Alien Love I know you're so much more than human  
Alien there's no doubt,  
We gotta work this out  
(cos) I want to know about  
Alien Love

As the days went by  
And went flying past venus  
With her six outer moons  
I wrote you a tune that made you smile  
But I did not know it

Alien Love oh how you made this poor boy's day go  
With your sequin lips and your Chelsea dayglo halo,  
Alien hold my hand,  
Alien I'm your man  
Help me understand Alien Love

As we walked the decks  
I held her hands in mine  
I'd count them all one day  
If I could find the time  
But the major came  
And the rules did state  
I could set you free  
Or I could terminate you

Alien love you're very strange but so familiar  
But Alien Love the Major said I have to kill you  
Alien leave my sight, alien fly tonight  
Just make sure you write, Alien Love  
Alien leave my sight, alien fly tonight  
Just make sure you write, Alien Love
